

US-730S Visco Modifying Surfactant

US-730S is a surfactant designed to be used in flexible slabstock polyurethane foams. US-730S can be used alone or in combination with other surfactants. US-730S promotes a fine cell structure while increasing the recovery times in viscoelastic foams.

Physical Properties

Property	Value	Unit
Viscosity @ 25°C	900	Cps
Specific Gravity @ 25°C	1.05	
Water content	< 0.1	%
Appearance	Pale clear	

Additional Information

The properties above are typical only and should be used as an example only. For more detailed product information, please refer to the Safety Data Sheet (SDS).
